SDVOSB | VOSB | SAM.GOV REGISTERED | SMALL BUSINESS | 100% SERVICE-CONNECTED | FLORIDA LLC | CAGE CODE — PENDING

COMPANY OVERVIEW

Heinrichs Software Solutions LLC delivers enterprise-grade software development, cloud architecture, AI/ML, and cybersecurity solutions to federal agencies — with the discipline and precision of veteran leadership. Founded by Derek Heinrichs, a 100% service-connected disabled veteran, we bring military-grade accountability to every line of code we ship.

Our proprietary **Genie AI Platform** — a 43-agent multi-LLM orchestration system — accelerates delivery timelines by 70–85% while maintaining government-grade quality standards.

CORE COMPETENCIES

SOFTWARE DEVELOPMENT

- Full-stack web apps (Node.js, Python, React, .NET)
- RESTful & GraphQL API design
- Microservices architecture
- Legacy system modernization
- Section 508 accessibility

AI & MACHINE LEARNING

- Multi-agent AI orchestration
- Multi-LLM consensus (7 providers)
- NLP & predictive analytics
- Intelligent automation
- Responsible AI frameworks

CLOUD ARCHITECTURE

- AWS, Azure, GCP migration
- FedRAMP & IL4/IL5 readiness
- Multi-cloud & hybrid deployments
- FinOps & cost optimization
- Disaster recovery & HA

CYBERSECURITY

- Vuln assessment & pen testing
- STIG compliance & RMF support
- Zero-trust architecture
- SOC setup & incident response
- Automated security scanning

DEVOPS & AUTOMATION

- CI/CD (GitHub Actions, GitLab CI)
- Docker & Kubernetes
- Infrastructure-as-Code (Terraform)
- Automated testing frameworks
- Monitoring & observability

BLOCKCHAIN & WEB3

- XRPL — payments, escrows, NFTs
- Ethereum/EVM — Solidity contracts
- Bitcoin & Solana integration
- Cross-chain architecture
- Multi-chain systems

KEY DIFFERENTIATORS

★ **100% Veteran-Owned** — Military discipline, accountability, and mission-focus in every engagement

★ **Proprietary AI Platform** — 43-agent Genie system not available from typical contractors

★ **Multi-LLM Consensus** — 7 AI providers validate & improve output quality — unique in the industry

★ **Full-Stack Depth** — Blockchain to AI to cloud to cybersecurity — single-vendor eliminates subcontracting

★ **AI-Accelerated Delivery** — Prototype-to-production at speeds traditional teams cannot match

★ **Cost-Effective Excellence** — SDVOSB pricing + AI-driven efficiency = exceptional value per dollar

PAST PERFORMANCE & PORTFOLIO

GENIE AI PLATFORM

PROPRIETARY PRODUCT

Production multi-agent AI orchestration — 43 specialist agents across 10 departments, 7 LLM providers with intelligent consensus routing, 4-chain blockchain module, 30+ REST API endpoints with SSE streaming.

Node.js | Express 5 | OpenAI | Anthropic | Google | xrpl.js | ethers.js

SAM.GOV CONTRACT INTELLIGENCE

AI AUTOMATION

Automated federal contract research with AI qualification matching, intelligent filtering, and professional PDF report generation for Sources Sought and RFI responses.

Puppeteer | Multi-LLM | PDFKit | SAM.gov API

DRAGONKILL ONLINE

REAL-TIME APPLICATION

Real-time multiplayer online game with persistent world, live combat, player interaction, and concurrent session management — demonstrating scalability expertise.

C# | Unity | WebSocket | Real-time

BLOCKCHAIN MULTI-CHAIN SYSTEMS

WEB3 / DEFI

XRPL EVM Sidechain smart contracts, cross-chain portfolio tools, AMM protocols, and blockchain-integrated gaming with on-chain assets.

XRPL | Solidity | EVM | Multi-chain

HEINRICHSTECH.COM

AWS PRODUCTION

Company website with Route 53 DNS, CloudFront CDN, S3 static hosting, Lambda API backend, SES transactional email, and full CI/CD pipeline.

AWS | Lambda | CloudFront | SES | Route 53

PROPRIETARY PLATFORM — GENIE AI

MULTI-AGENT AI ORCHESTRATION PLATFORM

Cutting-edge AI platform built entirely in-house. Genie orchestrates 43 specialist agents across 10 operational departments, leveraging 7 LLM providers with intelligent consensus routing to deliver mission-critical software at unprecedented speed and quality.

43	7	4	70-85%
AI AGENTS	LLM PROVIDERS	BLOCKCHAINS	COST SAVINGS

- Autonomous task→delivery pipeline
- OpenAI, Anthropic, Google, Groq, xAI, Mistral, AI21
- Bitcoin, Ethereum, XRP Ledger, Solana
- Automated QA review & security scanning
- Multi-agent planning & execution
- 30+ REST API endpoints with SSE streaming
- PDF, HTML, Markdown, JSON, SQL, DALL-E 3
- Tiered LLM routing with intelligent caching

TECHNOLOGY STACK

LANGUAGES
JavaScript, TypeScript, Python, C#, Solidity, SQL, HTML/CSS

CLOUD & INFRASTRUCTURE
AWS, Azure, GCP, Docker, Kubernetes, Terraform, Pulumi

AI / ML
OpenAI GPT-4o, Claude, Gemini, Groq Llama, Grok, Multi-LLM Consensus

FRAMEWORKS & TOOLS
React, Node.js, Express, GraphQL, GitHub Actions, PostgreSQL, MongoDB

BLOCKCHAIN
XRPL, Ethereum, Bitcoin, Solana, Web3, Solidity, xrpl.js, ethers.js

SECURITY
STIG, RMF, Zero-Trust, Pen Testing, FedRAMP, Automated Scanning

OPEN SOURCE & GITHUB PORTFOLIO

OUR VALUES

★

INTEGRITY
We do what we say and deliver what we promise — the same standard we held in uniform.

💪

DISCIPLINE
Military precision in every line of code. Rigorous testing and relentless quality.

🚀

INNOVATION
Cutting-edge AI, cloud, and security technologies to solve the hardest problems.

🤝

SERVICE
We served in uniform. Now we serve through technology that protects and empowers.
